

Participating Members:

Cyrille Adam	Danielle Noriega
Erin Bascug	Misti Storie
Sabrina Bauroth	Kaley Sullivan
Mike Brooks	Michelle Tuten
Deb Finnell	Aaron Williams
Eric Goplerud	
Holly Hagel	
Paul Maiden	
Ann Mitchell	
Tracy McPherson	

Meeting Summary:

The following are discussion summaries from this meeting, led by Tracy McPherson.

RFA

NORC is creating an RFA for the mini-grant program. After last meeting, several Steering Committee members provided examples of applications to help NORC design their application. If members have any other examples or items that they feel that NORC should consider during the drafting, please send them to the NORC team.

Needs Assessment

NORC is continuing to work with Dawn Lindsay and Holly Hagle at IRETA to create a Needs Assessment for the Learning Collaborative members and possibly a larger group of nursing and social work members. The purpose of the assessment is get a feel for what schools are currently doing and what they see as needs. Several Steering Committee members supported doing a national Needs Assessment rather than limiting it to just the LC members. A larger group would allow for a clearer view of what is going on. The LC members are already on board and in support of SBIRT education so that would not be representative of all schools. The main downside to doing a national survey would be the likelihood of a low response rate so it may not be representative as well. However, the benefits of a national survey outweighs the negatives. Additionally, the needs assessment could act as publicity for the project.

Web Analytics

Tracy provided a break-down of some of the web analytics for the adolescent SBIRT website located at sbirt.webs.com. In addition to the website, she also gave an update on the number of learning collaborative members and “walk-thru” calls completed with LC members to get to know their programs. The analytics are detailed below:

Total website views: 2030

Monthly Average Views: 290

Views last month: 278

Total walk-thru calls complete – 25

Individual members on the Learning Collaborative listserv – 136

Kognito Updates

Kaley Sullivan provided an update on the SBIRT simulation progress. The script for “Josh” has been updated. Josh is a 15 year old who consumes alcohol on a weekly basis and ended up in the hospital after jumping off of a roof at a party. Kognito will provide a copy of the script for review. They are beginning to work on the second script for the character “Caleb.”

Currently the feedback and feedback process between the subject matter experts and Kognito has been useful. Kognito is will keep the SMEs updated in the case they would like any different types of feedback from them.

Conferences

The NORC team will attend the *SBIRT for alcohol and other drug use: An Interprofessional Conference* in Pittsburgh, PA from June 9—10, 2015. At the conference, NORC and Kognito will present a digital poster and Eric will participate in a panel. This will be a good networking opportunity to meet people who are implementing SBIRT.

NORC will also participate in the CSWE 61st Annual Program Meeting on October 15-18, 2015 in Denver, CO. The team is looking to submit to INEBRIA and AMERSA as well. There was also interest in working with National Council on a future pre-conference panel to discuss the importance of involving schools and pairing with community mental health centers. NORC will reach out to Jake Bowling to further discuss when appropriate.

Action Items:

- Steering Committee members should send examples or considerations for the RFA to NORC.
- Committee members should send items to be included in the agenda.
